

The ATBC Asia Pacific Chapter will hold a Virtual Annual Meeting on July 28th 2021

Session 1: 8:30 - 10: 30 India Standard Time (+5.30 hours UTC)

Session 2: 15:30 - 17:30 India Standard Time (+5.30 hours UTC)

The programme will include discussion panels and talks, as well as providing a platform for the ATBC-AP AGM

Asia Pacific Chapter AGM and the Year Ahead

The annual general meeting shall reflect on past activities and discuss the agenda for 2021-22, in particular, Conservation Asia 2022, India.

Human Wildlife Conflict Panel Discussion

This panel session shall focus on human-wildlife conflict with case studies on elephants (Sri Lanka and Malaysia), tigers (Nepal) and leopards (India)

Conservation Genomics

Two talks will focus on the application of conservation genetics and genomics in biodiversity monitoring and endangered species conservation

Landscape Approach and Operational Strategies

This talk will discuss landscape ecology as science and the landscape approach as a management framework, drawing on experience within India.

Marine Matters

This session focuses on Asia's most charismatic marine fauna, including a study that bridges Local Environmental Knowledge (LEK) and marine mammal research and, the importance of sharks and rays to the reefs of Malaysia.
